

REPUBLICANS HELPED.

The Democrats Win a Victory in the House.

A KNOCK OUT ON SPEAKER REED.

The House Journal Approved as Amended—One of the Most Exciting Parliamentary Struggles That Ever Took Place in the Hall of Representatives—A Letter from Blaine on the Pan-American Customs Union.

WASHINGTON CITY, June 20.—The fight in the house Thursday over the silver bill was one of the most exciting and momentous parliamentary struggles that ever took place in the hall of representatives. The fight was on the question whether under the rules the speaker could send the silver bill to the coinage committee without a vote of the house. If he had not referred that bill to the committee on coinage, the house would have passed it by a majority of from 6 to 20, and it very likely would have come back from the president with a veto, which the leaders of the Republican party naturally do not desire. But the Democrats desire this and that was the animus of their fight against the reference. If the bill goes to the president in such a shape that he will veto it, there will probably be trouble with the free coinage Republicans, which would not trouble the Democrats in the least.

Chairman the Order Was Ineffective.

Mill's resolutions as offered recited that the order of reference made by the speaker referring the silver bill to the committee on coinage, weights and measures was in error under the rules of the house and done without authority under said rules, thus censuring the speaker, and it was this that the free silver Republicans who voted with the Democrats Thursday voted for. The fight raged hotly all day and it was 7 p. m. before adjournment was reached. At that time Mill's resolution had been adopted, but Mills had moved to withdraw the part censuring the speaker and declaring an adjournment out of order and his motion was adopted, in spite of the objection of the Republican leaders, by a vote of 121 to 109. With a motion pending to oppose the journal as announced by Mill's resolution the house adjourned leaving the question open and the bill hangs between earth and sky. In a parliamentary sense it was entirely in the air. It was neither before the house nor in the hands of a committee. The journal has been corrected, but it has not been approved as corrected.

Friday's Proceedings.

There was a significant change in the speaker when he opened the proceedings of the house at noon Friday. He prayed that the Almighty might "cool the fevered pulses" of the members, an obvious anticipation of a repetition of the exciting scenes of Thursday. When he had concluded, Speaker Reed moved to reconsider the demand made by Mills for the previous question on the approval of the journal and pending Thursday when the house adjourned. The speaker put the demand, and after some more sparring the roll call was concluded, and it was made known that the speaker had changed his vote from no to aye in order to move a reconsideration. The speaker then announced that the previous question was ordered—ayes 120, nays 122. The Republicans voting with the Democrats were: Bartlett, Carter, Dehaven, Egan, Mann, Kelly, Morgan and Townsend. The Democrats, with the assistance of several Republicans triumphed. The motion of Mills to lay the motion to reconsider on the table was carried—ayes 141, nays 129. The question then returned to the approval of the journal as amended, and McKinley demanded the yeas and nays. Before the vote on this motion had been announced, it was whispered about that it had resulted in a tie, which really defeated the motion. Dargan, of South Carolina, and Tracy, of New York, voted "no" with the Republicans. Dargan at once became the center of attraction. The Democratic leaders gathered about him and implored him to change his vote. Their efforts were successful. Dargan was recognized before the result was announced, and stated that he desired to change his vote from yea to nay. Then the speaker announced that the yeas were 132, the nays 130, and the journal as amended, was approved. The Democrats made no demonstration on the announcement of their victory, and the reading clerk began reading the journal of Thursday's proceedings.

The Anti-Trust Bill.

On the conclusion of the reading, Speaker Reed stated that the journal would stand approved without objection. Stewart (Vt.) asked for recognition to present the conference report on the anti-trust bill. Bland (Mo.) raised the question of consideration. Bland's purpose was to offer the following resolution: "That house bill 5,381, directing the purchase of silver bullion and the issue of treasury notes thereon, and for other purposes, with senate amendments, be taken from the speaker's table and the senate amendment concurred in." The house determined—ayes 144, nays 102, to consider the conference report.

Another Discussion Comes Up.

The conference report on the anti-trust bill was adopted. Dargan, of Pennsylvania, presented the report of the committee on elections in the contested election case of Chalmers vs. Morgan. Bland, of Missouri, offered his resolution to take up the silver bill. McKinley moved to the point of order that the motion was not privileged, the only way to reach the speaker's table was to follow the order of morning business. Conger, of Iowa, made the further point that the bill was not on the speaker's table, but in the hands of the committee on coinage. Bland argued that the bill was on the speaker's table and within reach.

Joseph Potts and His Wife Die on the Gallows for the Brutal Murder of a Man to Whom They Were Indebted—Edward Davis and Rudolph Dubois Hanged in Canada for Murder—History of Their Crimes.

ELKO, Nev., June 20.—The execution of Joseph Potts and his wife Elizabeth for the murder of Miles Fawcett, at Carlin on Jan. 1, 1888, took place here Friday. Fawcett, who was about 70 years of age, lived on a ranch a few miles from Carlin, where he had some stock and several hundred dollars in money. Mrs. Potts did his washing and baking and Fawcett lent the Potts' several hundred dollars, which they subsequently refused to repay. On Jan. 1 Fawcett, with one Linberger went to Potts' house to demand the money. Linberger, after accepting a glass of liquor, left the house, leaving Fawcett there to transact his business. That was the last Fawcett ever seen. Fawcett's body was found in the following year. Potts' family stated that Fawcett had settled up all his business, had given Mrs. Potts a bill of sale of all his property and had left for parts unknown.

Discovery of the Crime.

In September, 1888, the Potts family sold their property and that formerly belonging to Fawcett and removed to Hot Springs, Wyo. The body of Fawcett, partly buried, with the limbs severed from the trunk, and the skull crushed in, was found in January, 1889, by the delegates to the state convention which meets next Wednesday are distinctly Quay delegates and uninstructed.

Windom Would Resign.

WASHINGTON CITY, June 20.—Secretary Windom has told a Republican senator, so a clerk of that senator says, that he would resign from the treasury department in the event of a free coinage bill passing both houses of congress and being signed by the president. He would regard it as so strong an act of disapproval of his financial policy that he would be obliged to resign. He added, however, that he did not expect either Mr. Harrison would sign a free coinage bill.

Nominated to the Senate.

WASHINGTON CITY, June 20.—The president has sent to the senate the following nominations: Thomas E. Millett, of Illinois, to be attorney general for the northern district of Illinois; J. A. Miner, of Michigan, to be associate justice of the supreme court of the territory of Utah.

A USE FOR JACK RABBITS.

A Lot Shipped to Kansas City To Be Chopped and Muzzled Hounds.

KANSAS CITY, June 20.—Probably the most unusual consignment ever sent to any city in the world came here Wednesday evening from the western portion of Kansas. It was a lot of wild jack rabbits, which are to be used at Exposition park in a great course next Saturday and Sunday. There are about twenty of the long-eared animals, and they were turned loose in the canvas-enclosed truck, and given a preliminary run being chased by the regular dogs. The grayhounds are the best in the country and will be coaxed according to the coursing rules. The dogs will be muzzled and all the entries will be free. Prizes will be given to first and second scores. There will be eight races on Saturday and each sport is anticipated of a character that is unusual in this part of the country.

PHILADELPHIA, June 20.—The Baltimore and Ohio express train which left Washington at 10:30 o'clock Thursday night, composed of two Pullman sleepers and several passenger coaches, left the city for New York, near Sing Sing, Md., at 1 o'clock Friday morning and went over an embankment. Chief Engineer Charles Ackenhead, of the Staten Island Rapid Transit company, an adjunct of the Baltimore and Ohio company, who occupied a berth in one of the sleepers, was killed, and several other people whose names have not yet been learned were injured.

Among those seriously hurt were Bishop Keane, of the Catholic university at Washington and Harry B. Kelly, son of Congressman Kelly, of Arkansas.

The Court Decided for the Rascal.

HARTFORD, Conn., June 20.—The suit of the Sing Chong company of Shanghai, China, against Yung Yung Wing, to recover \$13,000 has been thrown out of court. Yung Sing, who is a Yale graduate, visited China some years ago, and while there borrowed \$15,000 from the Sing Chong company. He has failed to repay the money. The company appealed to American courts to force the delinquent borrower to pay the amount. The documentary evidence was all in the Chinese language, and the defense held that this was inadmissible. The court sustained that view.

NEW YORK, June 20.—Samuel Oppenheim & Co. locked out 100 of their cutter operatives and cloak makers Friday morning, making twelve firms in all now who have locked their men out. About 7,000 men and women are idle in consequence of the strike, but they are cheerful and claim to be able to hold out all summer, if necessary, to make the employers recognize their unions.

Gompers and Powderly to Meet.

All preparations are completed for the mammoth mass meetings of the Knights of Labor to be held at Cooper union. Grand Master Workman Powderly, of the Knights of Labor, sent President Gompers, of the American Federation of Labor, a letter in which he agrees to meet Gompers on the stage at Cooper union for a discussion of the differences between the knights and the federation.

Desperate Encounter Between Police and a Mob of Strikers.

DETROIT, Mich., June 20.—The other day W. G. Vinton & Co., contractors, got an injunction from the circuit court to prevent striking carpenters from intimidating non-union men working for the firm. Nevertheless Thursday evening a crowd of strikers congregated about Vinton's shop and when the workmen came out attacked them. Some of the workmen were severely wounded. A squad of policemen hurried to the scene, but the strikers, armed with clubs and stones, fought the strikers. The strikers used their clubs vigorously, and the strikers fought fiercely until the officers drew their revolvers. Then the mob scattered. Six strikers were captured, however, all of them more or less bruised by the clubs of the policemen. A number of others are reported hurt. The strikers have been very restless for the last week and are becoming enraged at the police. Further trouble is feared.

The Amalgamated Association.

PITTSBURGH, June 20.—The only important business before the Amalgamated association Thursday was the consideration of the report of the committee on constitution. The wage scale for the year commencing July 1 has been completed and delivered to the various committees in printed form. The scale will be presented to the manufacturers before the end of the week. The scale shows but few important changes from that now in force, but some will likely meet with objection.

Another Strike Settled.

PITTSBURGH, Pa., June 20.—The strike of the brakemen of the Pittsburgh, Virginia and Charleston road has been settled. Friday morning they accepted the terms offered by the company. The wages for the day men \$2.10, and for night men \$2.25. The men running between McKeesport and Brownsville are to receive \$1.90 per day. The strikers went to work as soon as the word reached them of the settlement, and took out their trains.

Switchmen at Work at Cleveland.

CLEVELAND, Ohio, June 20.—All striking switchmen except those formerly employed by the Valley, Nickel Plate, Cleveland and Canton and Pittsburgh roads are now working and the fears of a food and coal famine have vanished. Work in the Lake Shore, Big Four, and Erie yards is progressing as if no strike had taken place.

He was knocked from the track and lay there until 7 in the morning, when he was brought to the hospital. His injuries are said to be fatal. He is about 70 years old. He said he had no relatives living and had lived at Danville, Ind.

Violated the Allen Labor Law.

NEW YORK, June 20.—Only one of the 250 Mormon immigrants who arrived at the barge office Thursday was detained. He is a Dane named Olson, and has his wife and three children with him. He says a Mormon missionary told him that if he came to Utah he (the missionary) would give him work as a carpenter. Olson will be returned to Denmark.

Lincoln, Ill., June 18, 1890.

HE FELT DOWN.

There is a good deal of satisfaction

connected with the efforts at silver legisla-

tion now going on in the House. The majority

of republicans are not only making frantic

efforts to crawl out of the hole in which the

democrats put them a few days ago, but

they are already beginning to feel the pain

of discussion among themselves. Thursday

was the first time Mr. Reed as speaker was

knocked down by part of the majority he

has held in hand so well thus far. He

attempted to appoint himself a committee

of one from whose decision there should be

no appeal on the question of silver legisla-

tion. Some of the Western republicans did

not dare trust their cause to the autocratic

republican and democrat, but one of silver

and anti-silver men. They tell us the free

coinage men are overwhelmingly in the

majority; and now they are invited to note

how they may be beaten by a single man

from a little district in the good-for-nothing

state of Maine.

They are not asked to look at the per-

formance as republicans and democrats.

They may look as a great majority at the

efforts of one man to beat them. Reed may

be able to do this for the present, but if the

people give him another chance then they

deserve to be beaten. This fellow's auto-

cratic greatness can rest only on the cowar-

dice of others; and if the people are aware

enough to test him in the matter then

Mr. Reed may continue his greatness. It

is not a question of politics, but one of gov-

ernment. Shall a majority that comprises

four out of every five rule in this country,

or shall we turn the law making business

over to one man from Maine?

We take it that Senator Allison did not

succeed very well in his effort to reform the

McKinley reform tariff bill in the Senate.

The bill as it now stands will be even less

satisfactory to Western people than it was

when McKinley got through with it. One

of the first things the Senate did was to in-

crease the duty on blinding twine. It is

thought that was a matter to which Allison

did not give hearty agreement. And then

the Senate thought it wise to still further

increase the duty on woolen goods. This is

another straw on the back of the poor Iowa

camel. And then the Senate thought it

the proper thing to extend the sugar bounty

to the New Englanders who defrauded us with

imitations of maple sugar. Where was Al-

lison when all these things were done?

He may have been a reformer, but we in-

sist the result shows that he was not in

session when the Senate proceeded to go

McKinley one better.

Well, the tariff bill has been through two

republican bodies of legislators with contin-

uously increasing disastrous results to the

Western man. In a short time it will go to

the president to be signed with that quill

from an American eagle. We should feel

thankful that it is not in the power of the

president to give the duties still another up-

ward shove.

It seems that some of the census enu-

merators are getting in deeper trouble than

they hoped to put some of the victims that

they were to be enumerated. Those in Minne-

apolis seem to be headed toward the yawning

penitentiary. There was a scheme on

foot to give Minneapolis about 100,000 more

people than were in the town. The folks

in the good town of St. Paul objected to this

and had some of the Minneapolis enumer-

ators arrested. Now there is enough bad

blood in that country to run a civil war.

Minneapolis holds a daily mass meeting

in which it is resolved to boycott St. Paul

in a business and political way. The citi-

zens of St. Paul have stationed a guard over

the half dozen sacks of evidence they hold

against the Minneapolis enumerators, and

they propose putting some of the Minne-

apolis people where they want have to

worry themselves about boycotts.

Those two towns are sometimes called

the twin cities, but they prefer to imitate

such brotherly relations as existed between

Cain and Abel. But we would like to

know where Porter got some of his census

enumerators? We were told that he was

looking for men who would swell the num-

ber of inhabitants in the Northwestern re-

publican states; but to find 100,000 too

many in one town is even too much to make

Quay smile.

From nearly every town there come com-

plaints that the census enumerators have

not done their work well. Most of the

newspapers complain that not enough peo-

ple were found in their towns. When we

remember that the enumerator is paid ac-

cording to the number of people he finds,

the change that he has not found all there

are should be supported by some very clear

evidence. We understand that there is

some complaint from Bloomington. It is

possible the enumerator was unable to catch

THE CURIOSITY SHOP.

A Collection of Fugitive Facts and Out-

lets of the Ordinary Information.

The potency of lunar influence in worldly

matters was a time almost universally

acknowledged, and even now many of the

errors and superstitions connected with

the moon still hold their ground among

rustic populations. Among popular su-

perstitions is the belief that the rays of

the moon, falling upon a sleeping person,

cause his face to become distorted, and,

as some aver, even deprive him of his senses

—in fact, lunatics were so named from

their supposed susceptibility to lunar in-

fluence, and "moonstruck" is a common

term for a state of mental aberration bor-

rowing on lunaticism.

The phases of the moon are supposed to

exert a marked influence over the growth

of mushrooms, and formerly, in order that

their flesh might not waste in the cooking,

a boy for the summer, called upon by some

advised to be when the moon was on the

increase or near the full. One sometimes

meets with the superstition that when the

moon comes in and goes out on a Sunday

seed planted during that month will not

grow. Hair, it is said, should be cut at

the full moon, otherwise it is liable to fall

off. Corn, on the other hand, should be

cut during the waning of the moon in

order that they may gradually diminish

and ultimately disappear. English country

folk bow or curtsy to the new moon, and

by some it is also supposed that a wish

made at such a time will be gratified. It

is held, too, that the money in one's pocket

should be turned for luck. To see the new

moon through glass, however, is considered

unlucky. When the moon is on its back,

that is to say with the horns of the crescent

pointing upwards, it is considered that a

sharp horse of the new moon

are supposed to preface wind, and

when the outline of the entire planet can

be traced it was, in Scotland, looked upon

as a sign of bad weather.

Music Loving Cows.

Opposite to our house was a large field in

which some twelve or thirteen cows were

put during the summer months. One day

a German band commenced to play on the

field which divided the house from the

road. The cows were quietly grazing at

the other end of the field, but as the music

advanced toward it, and stood with their

heads over the wall attentively listening.

This might have passed unnoticed, but

the music then ceased, and the cows

upon the musicians going away, and

the cows then as well as they could

on the other side of the wall, and when

they could get no further stood lowing

pitiously. So excited did the cows be-

come that some of them ran round and

round the field to try to get out, but find-

ing no outlet rushed to the corner where

they had light of the band, and it was

some time before they seemed satisfied that

the sweet sounds were really gone.—Ameri-

The Happiest Woman in France.

Mrs. Millais, wife of the famous artist

and ex-wife of John Ruskin, is said to be

the happiest woman in all France. By the

painter she is regarded as his mascot, his

luck having changed almost immediately

after her death. Her husband, it is said,

after having been a millionaire, lost all his

money and is now worth a million dollars,

and the model and inspiration of his pic-

tures lives like a royal princess, followed

by a staff of artistically dressed servants

and surrounded by every luxury that

money can buy. In fact, and in figure, she

is still beautiful and her man-

ners and accomplishments are most cap-

tivating. There are oriental couches in

Mrs. Geo. P. Smoot, a highly cultivated and estimable lady of Prescott, Ark., writes under date of April 25, 1890: "During the summer of 1887 my eyes became inflamed, and my stomach and liver hopelessly disordered. Nothing I ate agreed with me. I took chronic diarrhoea, and for some time my life was despaired of by my family. The leading physicians of the country were consulted, but the medicines administered by them never did me any permanent good, and I lingered between life and death, the latter being preferable to the agonies I was enduring. In May, 1888, I became disgusted with physicians and their medicines. I purchased a bottle of S. S. S., a few bottles of which made me permanently well—well from then until now."

THE BLOODY SHIRT.

THE PATRIOTS OF MACON COUNTY IN CONVENTION.

The Bosses Manipulate Everything to Their Own Satisfaction—No Monument to be Allowed South of Macon and Dixon's Line—Rowell Stuffed Down the Throat of the Malcontents.

About 150 men assembled at the court house yesterday at 1 p. m., the hour named for the meeting of the republican county convention, of whom 82 were delegates. At 1:30 Capt. Kanan, chairman of the central committee, called the convention to order. John A. Barnes read the call for the convention, the purpose of which was to elect ten delegates to the state convention, which meets on the 24th inst., and 10 delegates each to the congressional and legislative conventions yet to be called and also to reorganize the county central committee.

Capt. T. H. Barr was elected temporary chairman by acclamation. On motion of John A. Barnes, Frederick A. Brown was named as temporary secretary. On motion of Hon. D. P. Keller a committee on credentials was named by the chair, consisting of Messrs. D. P. Keller, John A. Brown and James Litsinberger. In a few minutes the committee reported that all the townships and districts were represented by delegates present except Harrisburg. The names of those entitled to seats were read by the secretary, including the city delegates heretofore announced in our columns and the following from the county at large: Austin—J. B. Nowlen, A. B. McKee, Blue Mount—E. K. Moffett, W. P. Siler, P. W. Jacobs, Friends Creek—Jas. R. Shepperd, T. H. Barr, Frank Quarry, Hickory—John B. Parko, John W. Rowa, Illinois—R. N. Hamilton, W. W. Kill, D. Bomker.

Long Creek—Samuel Davis, J. A. Cochran, S. S. Wallis. Macon—S. S. Washburn, Isaac Peepers, E. T. Willoughby, D. P. Keller. Maroa, First Dist.—Edward Foulke, S. Jones, L. Wyckoff, John Happer, A. Stouenbrough. Milan—C. H. Arnold, J. V. Moody. Mount Zion—A. A. Burrows, D. C. Davidson, L. J. Bohrer. Nantico—A. W. Hendricks, George F. Kitch. Oakley—Ell Ashley, F. E. McCoy. Pleasant View—E. E. Lemon, D. H. Dunbar, W. H. Bean. Wheatland—John Ward, John Woods. Whitmore—James Litsinberger, S. W. Johns, John Lee.

The report of the committee was adopted, as also a motion to make the temporary organization permanent.

On motion, the chair appointed George H. Steele, Sherry Johns and W. H. Harnsberger as tellers to count the votes of the convention.

After some discussion it was determined that of the delegates to each convention one-half should be selected from Decatur and the other half from the country, and that the votes should be announced by districts.

Nominations were then made for five delegates from the city to the state convention. The balloting resulted in the selection of Thomas Penwell, A. H. Mills, Jason Rogers, Baker Nickens and Dr. Calhoun.

From the country there were selected: Dr. S. S. Wallis, Frank H. Quarry, J. B. Nowlen, C. N. Fletcher and Jacob Hanes.

On motion of Fred A. Brown, the delegates-elect were instructed to support James J. Finn for clerk of the supreme court.

To the congressional convention there were elected: From Decatur—M. F. Kanan, C. M. Imboden, James Freeman, R. F. Lytle and D. A. Maflitt.

From the County—James Litsinberger, Whigam, A. W. Hendricks, Nantico; C. Davis, Long Creek; John G. Happer, Maroa, and T. H. Barr.

but was completely drowned out by the voices of the enthusiastic admirers of the McLean county statesman, and the resolutions as originally read were adopted.

Delegates to the legislative convention were then elected as follows: From Decatur—H. F. May, Henry McClellan, C. L. Hovey, George R. Steele and Rudolph Thomas.

Members of the county central committee were named as follows by districts: First and Second, to be supplied; Third, J. T. Hubbard; Fourth, Henry McClellan; Fifth, G. R. Steele; Sixth, A. H. Mills; Seventh, John A. Barnes; Eighth, Samuel C. Sloan; Ninth, A. McClellan; Tenth, E. G. Allen; Eleventh, James Freeman.

Austin—A. B. McKee. Blue Mount—J. A. Barnes. Friends Creek—J. R. Shepperd. Hickory—Sol Williamson. Alliance—C. B. Hall. Long Creek—S. S. Wallis. Macon—R. H. Woodcock. Maroa, First—C. F. Emory. Maroa, Second—T. N. Lemmon. Milan—Jacob Moody. Mt. Zion—T. N. Fletcher. Nantico—A. W. Willis. Oakley—John H. McCoy. Wheatland—John Ward. Whitmore—James Litsinberger.

The delegates to the several conventions were, on motion, authorized to name their alternates.

At this juncture a very remarkable motion was made by D. A. Maflitt, which to an outsider seems all the more remarkable from the fact that the maker is supposed to be the "official" candidate for the republican nomination for sheriff. This motion was to the effect that the convention elect Mayor Kanan as chairman of the county central committee.

This was the only point advanced by any of the bosses that was not promptly rushed through but this was a proposition so unheard of, so revolutionary and so totally at variance with every rule and precedent of all parliamentary bodies that the chairman mustered courage to declare the motion out of order and to state that the election of a chairman was the prerogative of the committee.

Soon after this shock the convention adjourned and the room was soon cleared of all but the janitor.

TO SUM UP.

The convention presented a marked contrast to the enthusiastic gathering of the democratic hosts of Macon county on the last day of May. The crowd was bigger at the democratic convention, there were no delegations absent, there was more enthusiasm and above all the farmers were allowed a voice in the convention and a hand in drafting the resolutions.

Yesterday the bosses had control. What they had set out to do they did, and nothing else was done. The farmers were given the chairman, but this empty honor was all they did get.

The machine ran very smoothly however and in spite of all the protests we have been hearing for a year past from the "better element" and the "young republicans," hardly a protest was made against the rule of the bosses.

The results are something wonderful to contemplate. The F. M. B. A., the K. of L. and other labor organizations ask for legislation in their favor. The republicans of Macon county reply by waving the "bloody shirt." They ask that political parties declare themselves on the great questions of making the United States senate and the railroad and warehouse commissioners popular, of a secret ballot, of removing restrictions from silver coinage, of a readjustment of the burdens of taxation so that the rich may not escape and the poor unjustly suffer. The republicans of Macon county reply by a resolution of confidence in Congressman Rowell.

Our carpets are cheap as you will perceive, by comparing our prices with other quotations published in the papers. STRAY SCRAPS.

The "Naked Queen" this afternoon.

Dr. John A. Dawson will deliver an address to-morrow at Long Creek.
The F. M. E. A. will have a big picnic at John Savage's grove, two miles north of Oakley, on July 4th.

The Short Line band concert at King's orchard will be to-night.
It looks as if the Fourth of July might as well be given notice to skip Decatur this year.

Professor Butler of Champaign will occupy the pulpit at the Baptist church to-morrow.
David Logan, about 78 years, living near Antioch church, was prostrated by a stroke last Tuesday, and is dangerously low.

The police have begun to shoot dogs that have no tags on them. This is a good work in which the citizens generally will commend them.
Reports of the damage to the oat crop continue to come in. J. W. Thornhill says he has examined thousands of acres and all are ruined by the red bug.

The Citizens Street Car company had a gang of men working all night last night putting in the new double curve at the corner of Main and Water.

The W. C. T. U. will hold a special meeting this evening at 7 o'clock to consider the plan of taking the dining hall during the camp meeting.

The Sons of Veterans were drilling on the street near the A. R. Hall last night. They are getting ready for the encampment at Jacksonville next week.

The Mexican circus finished its engagement last night and will go to Sullivan today. The show will put in next week on the southern end of the P. D. & E.

Ed Dimock with a double surrey drawn by two horses has started a 10 cent delivery line that will deliver people instead of parcels to any part of the city for 10 cents.

Work on the improvements to be made at the new park this summer will begin next week. About \$400 will be spent on the new fencing and a handsome entrance.

Another contest at quilts took place between the coal miners of the two different shafts Thursday night. The old shaft men beat the new shaft men by a score of 63 to 8.

A buggy was left a half-mile north of Elvin about five weeks ago. It was a good buggy when left, except that the front wheels had been smashed. Now the top is about gone.

Contractor P. H. Hunt expects to begin work on the Wilcox sewer next week, which will be pushed through. The Broadway sewer will be started by July 1, and work on it will be hurried.

A picnic is advertised to be given at Woodlawn park, near Bethany, on Friday, June 27, when a special train will leave Decatur over the P. D. & E. All the big people of the state are announced as among the attractions.

Lee Hall, the letter carrier, is having a pair of trousers rebuilt, as the result of a reception given him by a bad dog. That is another place where Lee will not deliver mail now. The postoffice department has ruled that people who will keep bad dogs must call at the postoffice for their mail.

The young ladies of the Vesper Tennis club entertained the club last night at Oakland park. The girls went out about 4:30 yesterday afternoon and played tennis. The gentlemen went out soon after 6. Supper was served in the pavilion and the evening was spent in games and boat-riding.

The people of Monticello sent a petition signed by many business men and citizens to the Wabash officials asking for a new depot there. An answer has been received that as soon as ground can be obtained work will begin. Plans are already drawn, and the people are assured that work will commence this summer.

Cecil Jack and a big crowd of boys were swimming in the river yesterday. Some one in the crowd stole Cecil's watch and chain from his clothes on the bank. All the boys except two turned their pockets inside out and were searched by one another. These two skipped over the hills, and now the police are looking for them.

Jack Williams, Charley Traver, Wade Conklin and Paul Smith returned yesterday from Otter Lake with a basket of fish that somewhat astounded the anglers who have been going there. One catfish weighed 30 pounds, another 15, another 10, and 3 others from 6 to 8. They were caught on a throw line.

A majority of the members of the Young Men's Christian association have given the board of directors proxies for the meeting to-night with instructions to sell the lot on Water street. It is certain, therefore, that the lot will be sold to Mr. Thatcher, who, it is understood, is buying the property for a syndicate. A new business block or a new hotel will be built on the ground.

There is nothing cooler this time of year than the way a woman will signal a car to stop while she is in the back part of the house, and then saunter around the front room gathering up bundles, preparatory to strolling out and getting on the car. The car full of passengers who watch the proceedings, do not keep so cool, however, and by the time a start is made again against the temperature has risen several degrees.

The performances of the "Naked Queen" have shown one thing, if they have not made a great amount of money for the managers, and that is that this opera house is as cool in hot weather as it is at any other time. It is really pleasant to sit on the lower floor on one of these warm nights.

The walls of the house are so thick, the ventilation is so good, and the electric lights give out so little heat—absolutely none whatever in fact—that the opera house is about as comfortable a place as one can find. Manager Haines need not close the theatre during the summer for fear of the heat.

Isaiah. Samuel Swinchart from near Argenta was adjudged insane yesterday by the county court. A conservator will be appointed. He manifestly is a peculiar one. He believes that he has a terrible contagious disease, and want let his relatives come near him or handle his clothes. Dr. Sibley, the physician on the jury that made the adjudication yesterday, examined him and found that he was perfectly well and without a trace of disease. The doctor's opinion had no weight with Mr. Swinchart.

After Thieves. Marshal Mason received a telephone message yesterday morning from Bloomington that three men had been arrested there who had in their possession a quantity of barber's tools. The marshal had been wanting someone who had stolen the entire outfit of two different shops here within the last two months, as he went up to Bloomington to see if he can identify the stuff. He will be back this morning.

IT WAS C. H. MORRIS.

Inquest over the Body Found at the P. D. & E. Crossing.

The supposition advanced by this paper yesterday morning that the body found at the Water street crossing of the P. D. & E. was that of C. H. Morris, proved to be correct. W. K. Himmelwright, for whom Morris formerly worked, read the account of the accident, and thought he recognized the description of his ex-employee. He went to Per's establishment and looked at the face, which he identified at once as that of Charles H. Morris, a son of Mrs. George P. Whitehead, whose husband keeps a grocery store at 1408 North Church street.

Morris was killed for W. T. Downing at his farm north of the railroad. Sometimes he went home at night and sometimes he didn't. When he didn't come home Thursday no uneasiness was felt, and "nothing was thought of his absence until the family heard of the account given in THE REVIEW."

It is supposed that Morris had started home late at night with a sack of corn for a pony he had, and had sat down on the cutting guard to rest. He fell asleep and never woke again.

Coroner Bondure held an inquest yesterday afternoon. The engineer and fireman of the P. D. & E. freight train that ran over Morris were present and gave their testimony. Their stories were not different from the account printed yesterday morning.

The verdict of the jury was to the effect that deceased came to his death by being run over. Beyond that they knew nothing.

Morris was about 31 years old and unmarried besides his mother he leaves two sisters and a brother.

THE FUNERAL was held at 5 yesterday evening from the residence of Mr. and Mrs. Whitehead, 1412 North Church street. Rev. M. L. Wagner, the English Lutheran minister, conducted the services, in which he was assisted by a quartette composed of Mrs. O. P. Spaulding, quartette Freeman, F. W. Westhoff and C. N. Brown. The burial was at Greenwood.

Fire Department Changes. Fire Chief Devore was formally sworn into office yesterday, and filled his bond. The fire Marshal W. W. Foster is one of the boardmen. Chief Devore celebrated his accession to power by a number of changes in the department. James M. Park who has been captain at House No. 1 was made a driver and Ed Platt, who has been a driver at House No. 2 was made captain at No. 1. Billy Gilligan was also transferred from No. 2 to No. 1, and two men from No. 1 were transferred to No. 2, where John Duffy was made captain.

New Y. M. C. A. Rooms. The Y. M. C. A. will have about \$25,000 on hand when it settles the lot at corner of North and Water streets, but it does not intend to put up a building very soon. Two officers have been made the association by men who will put up buildings with rooms. The especially arranged for the association. The rooms may be either on the ground floor or on the second floor.

The location is on North Main street, near Prairie. It is certain that one of these offers will be accepted, and the association will be in new and commodious rooms before very long.

The "Naked Queen." The last night performance of the "Naked Queen" was given last night with Miss Maude O. Leddingwell in the title role. She had recovered her recent illness to take the part for which she was originally cast, and she did wonderfully well in it. The performance was good, though the audience was not so large as it should have been.

The last performance will be given this afternoon at the matinee, which will commence at 2:30. It is a first-class opera, and should be seen by all the big people and little people of the town.

BE FELL DOWN.
There is a good deal of satisfaction con-
nected with the efforts at silver legislation
now going on in the House. The majority
of republicans are not only making frantic
efforts to crawl out of the hole in which the
democrats put them a few days ago, but
they are already beginning to feel the pain
of dissection among themselves. Thursday
was the first time Mr. Reed as Speaker was
knocked down by part of the majority he
has held in hand so well thus far. He
attempted to appoint himself a committee
of one from whose decision there should be
no appeal on the question of silver legisla-
tion. Some of the Western republicans did
not dare trust their cause to the autocratic
mercenaries of Mr. Reed, and so they joined the
ever-willing and good democrats in an as-
sault upon his moon-faced eminence of the
red vest.
The result was that Reed fought an entire
day in a vain attempt to have his perfor-
mance of the day before confirmed by a House
that boasts a republican majority. The
representatives learned that the dictator
might be bearded without the heavens fall-
ing on them. No doubt this was a great
surprise to the Congressmen, and a still
greater one to Mr. Reed. Hereafter we
may expect the members of the House to
rise in rebellion upon slighter provocation
than has been given them many times dur-
ing the present session. It is still impossi-
ble to tell what may become of the silver
bill, but the attitude of the parties upon
that question is receiving an amount
of advertising that is bound to do great
work in the next election.

Our Neighbors.
Some time Sunday night burglars broke
into St. Mary's Catholic church at Cham-
paign and carried away many valuables.
Entrance was effected by breaking one of
the large ornamental windows on the side
of the church. Two thieves ransacked
the premises thoroughly. The altar door,
which was elegantly carved, was broken
and damaged beyond repair. The sacred
service of gold and silver was stolen, be-
sides other articles of value. The burglary
was evidently the work of non-profession-
als. Among the articles taken were two
ciboriums and the holy-water sprinkler.

Why Envelopes are Redeemed.
Washington Star.
Some people have an idea that the govern-
ment redeems postage stamps when from
any cause they become unfit for use or are
difficult to use. Frequently sheets of stamps
are stuck together, or are torn or injured.
The loss, if any, falls upon the owner, as
the government refuses to assume any
responsibility of stamps when they are sold.
The agents of the government, the post-
man, can redeem stamps which they have
for sale, if through any accident they
become unfit for use. But when the citizen
buys a stamp he uses it. It is in the legiti-
mate way or else he is out of the value of
the stamp.
In the government, however, redeems
stamped envelopes. If one should happen
to be misdirected or should become blotted,
or for any reason a person should wish to
tear open a stamped envelope after he had
sealed it for mailing, he can bring it to the
postoffice and get a brand new envelope.
The reason of this difference in the
treatment of the adhesive stamp and the
stamped envelope is that the adhesive
stamp can be used and then washed
and passed as good unless a careful
scrutiny is made. If the government should
begin the practice of redeeming adhesive
stamps, the opportunities for fraud would
be increased. Then the adhesive stamps
are manufactured at a cost to the govern-
ment, which stamped envelope is not.
The stamps are purchased by the public
and out of this has to come
the cost of manufacture, but in the case of
stamped envelopes they are sold at their
face value plus the cost of manufacture.

The potency of lunar influence upon daily
matters was at one time almost universally
acknowledged, and even now many of the
superstitions connected with the moon still
hold their ground among rustic popula-
tions. Among popular au-
perstitions is the belief that the rays of
the moon, falling upon a sleeping person,
cause his face to become distorted and, as
some have even gone so far as to say, to
cause lunacy, lunatics were so named from
their supposed susceptibility to lunar in-
fluence, and "moonstruck" is a common
term for a state of mental aberration bor-
dering on insanity.

THE CURIOUS SHOP.
A Collection of Fictitious Facts and Out-
lets of the Ordinary Information.
The potency of lunar influence upon daily
matters was at one time almost universally
acknowledged, and even now many of the
superstitions connected with the moon still
hold their ground among rustic popula-
tions. Among popular au-
perstitions is the belief that the rays of
the moon, falling upon a sleeping person,
cause his face to become distorted and, as
some have even gone so far as to say, to
cause lunacy, lunatics were so named from
their supposed susceptibility to lunar in-
fluence, and "moonstruck" is a common
term for a state of mental aberration bor-
dering on insanity.

The walls of the house are so thick, the ventilation is so good, and the electric lights give out so little heat—absolutely none whatever in fact—that the opera house is about as comfortable a place as one can find. Manager Haines need not close the theatre during the summer for fear of the heat.

IT WAS C. H. MORRIS.

Inquest Over the Body Found at the P. D. & E. Crossing.

The supposition advanced by this paper yesterday morning that the body found at the Water street crossing of the P. D. & E. was that of C. H. Morris, proved to be correct. W. K. Himmelwright, for whom Morris formerly worked, read the account of the accident, and thought he recognized the description of his ex-employee. He went to the establishment and looked at the face, which he identified at once as that of Charles H. Morris, a son of Mrs. George F. Whitehead, whose husband keeps a grocery store at 1408 North Church street.

Morris worked for W. T. Dowling at his farm north of the railroad. Sometimes he went home at night and sometimes he didn't. When he didn't come home Thursday no uneasiness was felt, and nothing was thought of his absence until the family heard of the account given in THE REVIEW.

It is supposed that Morris had started home late at night with a sack of corn for his horse, and had fallen asleep on the cart to guard to rest. He fell asleep and never woke again.

Corner Bendure held an inquest yesterday afternoon. The engineer and fireman of the P. D. & E. freight train that ran over Morris were present and gave their testimony. Their stories were not different from the account printed yesterday morning. The verdict of the jury was to the effect that deceased came to his death by being run over. Beyond that they knew nothing.

He was about 21 years old and unmarried besides his mother he leaves two sisters and a brother.

THE FUNERAL.

was held at 5 yesterday evening from the residence of Mr. and Mrs. Whitehead, 1419 North Church street. Rev. M. L. Wagner, the English Lutheran minister, conducted the services, in which he was assisted by a quartette composed of Mrs. O. F. Spaulding, Miss Mame Freeman, F. W. Westhoff and C. N. Brown. The burial was at Greenwood.
